Why choose rigid vinyl flooring?

Looking for a renovation-friendly floor? Then rigid vinyl flooring is the solution for you. Installing a rigid vinyl floor on an existing surface is a breeze. It can be laid over existing floors, including uneven surfaces. So no need to spend time removing old flooring. But not every rigid vinyl floor is the same. That's where Alpha Vinyl comes in.

What makes Alpha Vinyl so unique?

When you're living your best life, you want a floor that can withstand anything. Alpha Vinyl is expertly designed and produced by our team in Belgium, so you don't have to compromise on design or performance. Combining robust practical features with exquisite surface detailing, you'll have worry-free, high-performing, beautiful floors. What could be better?

Discover our three distinct features that will make you fall in love with Alpha Vinyl, your best choice for flooring.

1. UNRIVALLED BEAUTY

Looking at our Alpha Vinyl floors, you will struggle to believe it's not real wood or stone. Using our revolutionary technology our floors have a hyper-natural surface design, recreating a feeling of nature in your home. From walking in woodland to picking flowers in a forest, nature gives us the respite we need from our busy lives and inspires us when creating our designs.

2. WONDERFULLY SILENT

After a busy day you deserve to come home to peace and quiet. From kids running around, to clatters from mishaps in the kitchen, there's usually some sort of noise going on. Alpha Vinyl helps you to switch off. Our sound-reducing floors will give you the perfect sanctuary to unwind. Sound good?

AVMPU4031B

3. INNOVATIVE WATERTIGHT TECHNOLOGY

In a home full of life, there's bound to be accidents but thanks to our watertight click-system, you can cope with spills. Water can't seep through the joints so your subfloor will stay completely dry. Our technology prevents dirt and damage to your subfloor that leads to an unhealthy indoor environment.

Unrivalled beauty

Our revolutionary surface technology gives the most natural looking vinyl to date. Taking inspiration from nature, our Belgian floor designers are committed to searching for the perfect original piece of wood or stone to base their designs on. Not only will your floors look right on-trend but they're hard to tell apart from the real thing.

AVMPU40318

Designs to inspire

We know you want to make your home look good so Alpha Vinyl's new collections are sure to inspire. Whether you like natural-looking wooden planks, bold tiles in playful colours or a carpet look, our Alpha Vinyl collection has the perfect floor for you.

Extra matt surface

At home everyone should feel free to be themselves, from children playing and running around, fun at family get-togethers, to pets doing what they do. Our top-performing lacquer creates a beautiful matt effect. What's more, our flooring comes with excellent stain and scratch resistance. So you don't need to compromise on performance or beauty.

AVMPU40318

True-to-nature design

The natural knots, woodgrain and stone indentations in your Alpha Vinyl floor are so authentic you'll have to look twice. Thanks to revolutionary technology, Alpha Vinyl has an authentic depth structure which makes its surface hyper-natural. Allowing all the performance you'd expect from vinyl together with our superior, detailed design.

AVMPU 40318

Wonderfully silent

With better soundproofing than traditional flooring, Alpha Vinyl is the ideal flooring for a home full of life. Engineered with multiple layers, you'll have the quiet and calm you deserve, away from the hustle and bustle of daily life.

Next to that, the innovative attached underlay will also reduce the sound towards neighbouring rooms. Sound good?

Brilliantly quiet

Alpha Vinyl's unique soft layer (A) minimises everyday sounds like children running around and heels clacking on the way out to work.

Our attached underlay (B) is able to reduce impact noise to neighbouring rooms by up to 21 decibels, making the floor even quieter. And for those that live in an apartment, this means not disturbing the neighbours below when inviting guests around.

There's more!

Not only does the underlay reduce sound, but thanks to our unique production process, the attached underlay fits seamlessly to the planks or tiles, so you don't have to worry about gaps. This ensures a perfectly supported click-system and improved sound dampening.

And did you know, our floors remain internally recyclable even with the attached underlay? So you can feel good about choosing flooring that commits to fully re-integrate production waste. See page 12-13 for more information on our commitment to sustainability.

AVMPU 40318

AVMPU 40318

Innovative watertight technology

Spilled water on your floor? You don't need to worry about raised edges or swollen planks. All of Alpha Vinyl's components are 100% waterproof. Make your dreams a reality in your favourite rooms – even in challenging areas like the bathroom, kitchen, and hallway!

On top of that, our watertight Hydroseal technology, in combination with the Uniclic or Unizip system, fully closes the joints between your planks and tiles. This makes the floor surface entirely watertight and prevents dirt and bacteria from settling in the subfloor. Our engineered click-systems are designed for maximum ease of installation, it's simply click and go! To guarantee a super strong, watertight connection with speedy, user-friendly installation, our Uniclic and Unizip click-systems with interlocking tongue and groove offer the best technical performance on the market.

/// QUICK-STEP

Our Hydroseal technology, in combination with the Uniclic or Unizip system, fully closes the joints. Making the floor surface entirely watertight, and preventing dirt and water seeping through the joints, avoiding damage to your subfloor.

COMPETITION

Weaker click systems and no Hydroseal technology mean water and spills can get through the joints. This leads to dirt and damage to the subfloor.

Unizip

Creating a herringbone pattern? Ordinarily, you'd need two different types of planks, A and B, which would mean slower and trickier installation. Not with Alpha Vinyl. Our herringbone floor has one ingenious type of plank that clicks on both sides, thanks to the Unizip system. You'll have a beautiful new herringbone floor in no time!

Sustainability at the heart of your home

We all love natural beauty. The only way to continue to enjoy the beautiful things our planet has to offer is to treat it with respect. That's why our flooring products not only look good, but are as hard-wearing and sustainable as possible. Together, we can reduce our ecological footprint, from the production of your flooring to the end of its life.

Clean indoor air

Most of your life takes place indoors, which is why the air quality in your home is so vitally important. Many factors have an effect on it: ventilation, candles, cleaning agents, and even the materials used in your interior, such as the flooring. That is why we minimise our emissions of harmful substances and have reduced them **lower than the European standard**. What's more, you don't

need any aggressive cleaning products to keep your vinyl flooring clean. All you need is lukewarm water and, if necessary, some Quick-Step Floor cleaner product.

The following labels demonstrate that your flooring complies with the strictest environmental and health standards:

The highest guarantee for the air quality in your home.

International building classification programme for low-emission products.

The proof that our flooring products do not release toxic substances and are odourless.

This SCS label shows that your flooring meets low-emission product requirements.

Consciously selected materials

We manufacture your vinyl flooring in Belgium, in the heart of Europe. The raw materials come mainly from neighbouring countries. Vinyl flooring can contain up to 40% **chalk**, a material that is and will remain available in abundance. Another quarter of our vinyl is made from **recycled PVC** from our own production waste. Only one quarter is made from what is known as '**virgin**' or **new PVC**. The remaining ingredients – primarily **additives** – do not contain any harmful substances. The plasticizers we use to make your flooring flexible are the same as those used in children's toys and food packaging and are, therefore, **100% ortho-phthalate-free**.

Green production

We take every opportunity to make our production processes greener. For this reason, we joined the **European Energy Efficiency Programme**, which aims to implement as many energy-saving measures as possible and monitors all efforts from day to day. Furthermore, 70% of the heat we use in our production unit is generated from wood residues and dust from our nearby lamination site. This helps us to save 25,000 tonnes of fossil CO₂ emissions per year.

Circular ecosystem

We recycle 99% of our own industrial waste through our internal production process. This means we do not burn or dump materials unnecessarily, and we create our own circular ecosystem.

commitment to sustainability.

On top of the trends

SOFT TRANQUILLITY

AUTHENTIC NATURE

DARK WABI-SABI

You're all about style. We get that. That's why we continuously add new floors to our collection, following the latest trends in colours and patterns for our designs. For our Alpha Vinyl collection, we took inspiration from three trends that bring peace and tranquillity back to your home.

SOFT TRANQUILLITY

Home. It's where you take a break, unwind, and retreat from the hectic outside world. Creating a harmonious setting to come home to isn't difficult at all. Light, neutral colours and tactile, hand-made materials are great ways to achieve tranquillity. A combination of soft textures and colours allows you to recharge and face the next day with renewed energy.

Soft tranquillity also concerns the minimalism found in Japandi, a stylish trend combining Japanese and Scandinavian interior design. Natural materials such as light oak with little knots and subtle colour contrast inspire the calm of nature. A beautiful example is our Botanical beige oak. Quiet, light neutrals like whites, simple but stylish light greys and natural elements combine well. Or try our Blos collection in light colours and go for that premium touch.

The only rule? Embrace simple, but avoid boring. Don't hesitate to go for a detailed but soft brushed surface. Alternatively, pick a warmer, sandy tone with a touch of pink, like the tones featured in our Coral stone tile.

CIRO

AVHBU40359

BLOOM

AVMPU40199

AUTHENTIC NATURE

Long walks in the forest, gardening, staycations at home among the local flora and fauna... Connecting with nature has never been more important than it is today. Bring some of that natural harmony into your home by incorporating brown tones in your interior. Where black invites contrast, brown supports other colours and helps them shine. Adding touches of green and brown, like our Autumn oak chocolate or Cinnamon stone floors, will create a cosy yet luxurious atmosphere in your home.

Surrounding yourself with nature also means accepting the beauty of imperfection. No lines in nature are straight, and every tiny element is unique. You can find a lot of that authenticity in our floors – take, for example, the small splits, cracks and beautiful knots of our Botanical smoked oak. Ready to fill your cocoon with natural elements?

**Other floors
to inspire you**

DARK WABI-SABI

The ancient Japanese aesthetic movement of wabi-sabi teaches us to see beauty in imperfection. Wabi-sabi revolves around asymmetry, geometric forms, robust unfinished materials and sleek shapes: a unique combination for any interior. Colourwise, upgrade your favourite rooms with earthy tones and vibrant greens. Another important facet of this movement is the focus on objects that add character or tell a story. Finally, rough materials like concrete, stone and wood can really make your rooms stand out.

Combining wabi-sabi and darker colours turns your home into a warm, luxurious place. Rough concrete surfaces, such as our Volcanic stone tile, add a touch of imperfection, inspiring balance, peace and tranquillity. Black and dark blue add a touch of mystery and exclusiveness. Not ready to go completely dark? Easily contrast dark elements with white or lighter-coloured surfaces and objects.

In which direction should

Guided by the light

The direction of your floor has a huge impact on a room's overall appearance and can be a tough nut to crack. As a general rule, lay your floor in the same direction as the main light source in a room and in the same line as the most frequently used entrance. If there are several doors and windows, then opt for the direction that's the easiest to install.

In narrow rooms

Installing your floor in a narrow room? Why not lay it horizontally! Planks laid width wise will make the surface appear wider, avoiding a boxed-in effect. To enhance this even further, avoid dark colours for your floor or walls, as these will make a narrow room look even narrower.

I install my floor?

In short rooms

If you're laying your floor in a short room, you'll want to add a sense of depth. Make the room look longer by installing your floor lengthwise. Want to increase the effect of lengthwise installation? Make sure to combine a light-coloured floor with darker walls: this will add even more depth to your room.

WORRY-FREE INSTALLATION

Found your dream floor? Our Unidlic and Unizip systems ensure a quick and easy installation, even when fitting in tight corners and under radiators. On top of that, all Quick-Step floors can be installed over traditional underfloor heating, and even on stairs! In addition, we offer all the accessories you need to install and finish your floor.

Check out our installation tips and videos at [quickstep.com](https://www.quickstep.com)

Does size
matter?

UNDOUBTEDLY YES!

ILLUME

AVMTU40274

A simple rule to follow is to use large format flooring for large rooms, which emphasises the spacious ambience. For small or irregular shaped rooms, a smaller format will better match the proportions of the room.

The icing on the cake

Matching skirtings

Go for a great look with Quick-Step's colour-matched skirtings for your floor.

PERFECTLY MATCHING COLOURS

Our skirtings flawlessly match the colour of every floor.

SCRATCH-RESISTANT TOP LAYER

Your skirtings are protected against the daily wear and tear.

QUICK-STEP WARRANTY

Skirtings come with the same warranty as your floor.

AVMPU40315

Paintable skirtings

Grab a can and paint your skirtings in a colour that suits your style, or simply leave them white. Do your skirtings need to withstand damp conditions, or do you want to be able to clean them with water? Make sure to choose waterproof skirtings.

Go for the perfect finish with Stair Covers

Thinking of giving your stairs a makeover? Alpha Vinyl is ideal for staircases. With our durable Vinyl Stair Covers, you'll get the job done in no time. They can also be matched to the design of your floor. They're scratch and wear resistant, watertight, simple to clean and easily installed. Without a doubt, the most efficient way to renovate. Vinyl Stair Covers are available only with our Bloom, Blos and Ciro collections.

Beauty comes in many sizes

PLANKS		DIMENSIONS	UNDERLAY
	CIRO	630 x 126 x 5+1 mm	 comes with underlay attached**, so no separate underlay should be installed
	BLOOM	1494 x 209 x 5+1 mm	 comes with underlay attached**, so no separate underlay should be installed
	BLOS	1251 x 189 x 4+1 mm	 comes with underlay attached**, so no separate underlay should be installed

RANGE OF ACCESSORIES

INSTALLATION

UNDERLAYS

Our separate underlays can be used only in combination with Blos base and Oro base floors (other collections come with underlay attached). Besides creating a level foundation, our underlays provide excellent acoustic insulation. On top of that, our underlays are compatible with traditional underfloor heating or cooling systems. Combine Blos base and Oro base with one of the underlay types below, choosing according to your specific needs.

Comfort
QSVUDLCOMFORT15
Thickness: 1.15 mm - Roll: 15 m²

This all-round underlay helps you level the existing subfloor. Comfort suits any room and is a sustainable choice because it's made of recycled PET flakes. Suitable with underfloor heating and cooling.

Heat
QSVUDLHEAT10
Thickness: 1.55 mm - Roll: 10 m²

The recommended underlay for rooms that get lots of direct sunlight, and rooms with underfloor heating or cooling. Our Heat underlay also offers the best in-room noise reduction. Moreover, it guarantees the best lifetime performance for your floor: over time it keeps performing at its best in terms of acoustics and support.

Transit
QSVUDLTRANSIT15
Thickness: 1.20 mm - Roll: 15 m²

Offering the best noise reduction toward neighbouring rooms, this underlay is ideal for first floors and apartments. Transit is a sustainable choice because it's mainly made of recycled PET flakes. Suitable with underfloor heating and cooling.

Our Heat underlay is composed of sustainable raw materials, including plant-based oils and mineral components such as chalk. The Comfort and Transit underlays are made from recycled PET flakes.

INSTALLATION TOOLS

Installation set
QSTOOLA

Set with a tapping block to easily click planks together, a clamp iron for hard-to-reach places and spacers to provide perfect expansion joints (8 mm) between walls and floor.

Vinyl installation tool
QSVTOOL

Clamp iron to easily cut planks to size and get to hard-to-reach places.

Vinyl knife
QSVKNIFEB / NEVKNIFEREFILL40
Incl. 5 blades

Knife for precise and stable cutting, including curves and shapes. A refill pack contains 40 blades.

FINISHING

COLOUR-MATCHED SKIRTINGS

Why choose Quick-Step colour-matched skirtings and profiles?

PERFECTLY MATCHING COLOURS

Our skirtings and profiles flawlessly match the colour of every floor.

SCRATCH-RESISTANT TOP LAYER

Skirtings and profiles are protected against everyday wear and tear.

QUICK-STEP WARRANTY

Skirtings come with the same warranty as your floor.

Scotia
QSVSCOT(-)
2400 x 17 x 17 mm

A discrete finish that matches the colour of your floor. Easy to install with One4All Glue. Use the Foamstrip and Hydrokit to obtain a watertight finish.

Also available in a white, paintable version (QSSCOTPAINT).

Standard skirting
QSVSK(-)
2400 x 12 x 58 mm

Standard skirtings that match the colour of your floor. Use the included plugs to connect skirtings, even in corners. The included plugs are available separately too (NEPLUG). Easy to install with One4All Glue.

Use the Foamstrip and Hydrokit to obtain a watertight finish. Also available in a white, paintable version (QSSKPAINT).

PAINTABLE SKIRTINGS

Paintable scotia
QSSCOTPAINT
2400 x 17 x 17 mm

Paintable scotia that can be left white as well. Easy to install with One4All Glue. Not suitable for damp rooms - check out our range of waterproof skirtings.

Paintable standard skirting
QSSKPAINT
2400 x 12 x 58 mm

Paintable skirting that can be left white as well. Use the included plugs to connect skirtings, even in corners. The included plugs are available separately too (NEPLUG). Easy to install with One4All Glue. Not suitable for damp rooms - check out our range of waterproof skirtings.

Paintable parquet skirting
QSPSKRPAINT
2400 x 14 x 77 mm

Paintable skirting with space to hide cables. Use NEPLUG plugs (not included) to connect skirtings, even in corners. Easy to install with One4All Glue or Track. Not suitable for damp rooms - check out our range of waterproof skirtings.

Paintable cover skirting
QSISKRCOVER
 2400 x 16 x 129 mm

Paintable skirting to put over an existing one - ideal for renovations. Adjustable to 4 heights between 68 and 129 mm. Can be left white as well. Easy to install with One4All Glue. Not suitable for damp rooms - check out our range of waterproof skirtings.

Paintable ovolo skirting
QSISKRWHITE
 2400 x 16 x 160 mm

Paintable skirting that can be used in two shapes for more decorative freedom. Adjustable to 5 heights between 25 and 134 mm - use the supplied Incizo knife. Can be left white as well. Easy to install with One4All Glue. Not suitable for damp rooms - check out our range of waterproof skirtings.

SHAPE 1

SHAPE 2

Paintable ogee skirting
QSISKROGEE
 2400 x 16 x 160 mm

Paintable skirting that can be used in two shapes to add a specific character to your interior. Adjustable to 4 heights between 20 and 140 mm - use the supplied Incizo knife. Can be left white as well. Easy to install with One4All Glue. Not suitable for damp rooms - check out our range of waterproof skirtings.

SHAPE 1

SHAPE 2

Paintable small skirting
QSPSKR4PAINT
 2400 x 14 x 40 mm

Paintable skirting that can be left white as well. Also available in a flexible version (QSFLEXSKR) to finish your entire space in the same style. Easy to install with One4All Glue. Not suitable for damp rooms - check out our range of waterproof skirtings.

WATERPROOF PAINTABLE SKIRTINGS

Paintable waterproof scotia
QSHSCOT19PAINT
2400 x 19 x 19 mm

Paintable, 100%-recyclable polystyrene scotia that can be left white as well. Use the Foamstrip and Hydrokit for a watertight finish in damp rooms. Easy to install with One4All Glue.

Paintable waterproof skirting
- small
QSHSK38PAINT
2400 x 13 x 38 mm

Small, paintable, 100%-recyclable polystyrene skirting that can be left white as well. Use the Foamstrip and Hydrokit for a watertight finish in damp rooms. Easy to install with One4All Glue.

Paintable waterproof skirting
- medium
QSHSK58PAINT
2400 x 13 x 58 mm

Medium, paintable, 100%-recyclable polystyrene skirting that can be left white as well. Use the Foamstrip and Hydrokit for a watertight finish in damp rooms. Easy to install with One4All Glue.

Paintable waterproof skirting
- large
QSHSK80PAINT
2400 x 15 x 80 mm

Large, paintable, 100%-recyclable polystyrene skirting that can be left white as well. Use the Foamstrip and Hydrokit for a watertight finish in damp rooms. Easy to install with One4All Glue.

Paintable waterproof flexible skirting
QSFLEXSKR
14 x 40 mm

Flexible, paintable skirting made of foamed PVC that can be cut to your desired length. Ideal to finish pillars or curved walls. Use the Foamstrip and Hydrokit for a watertight finish in damp rooms. Easy to install with contact glue.

INSTALLATION TOOLS FOR SKIRTINGS

One4All Glue
QSGlue290
290 ml

Multi-purpose glue that ensures adhesion on all materials and substrates.
Average usage: 1 tube for 15 m of skirtings.

Plugs
NEPLUG

Connection pieces for standard skirting and parquet skirting. One package contains 24 connections for inside and outside corners + 24 connections for straight stretches.

COLOUR-MATCHED PROFILES

Incizo profile
QSVINCP(-)
 2000 x 45 x 8 mm

Multifunctional finishing tool to finish your floor and stairs in matching colours. Simply cut the Incizo basic profile to the desired shape with the supplied Incizo knife. Use the Foamstrip and Hydrokit for a watertight finish. Patent pending.
 Contains 1 Incizo profile, 1 Incizo knife and 1 plastic rail.

APPLICATION 1
 Connect two floors of different heights.

APPLICATION 2
 Connect two floors of the same height.

APPLICATION 3
 Finish your floor along walls or windows.
 Cut in half to cover twice the distance with one profile.

APPLICATION 4
 Create a nice transition between your Alpha Vinyl floor and other flooring types or finish along sliding windows.

Incizo profile / Incizo aluminium subprofile for stairs
QSVINCP(-) / NEVINCPBASE1
 2000 x 45 x 8 mm /
 2000 x 33 x 17 mm

The Incizo profile also allows you to finish your stairs and steps in the flooring design of your choice. For this application, you need the Incizo profile and an aluminium subprofile. Subprofile to be ordered separately.

APPLICATION 5
 Finish your stairs and steps.

ALUMINIUM FINISHING PROFILES

silver

coffee

clay

champagne

Vinyl expansion profile
NEVEXPSILV / NEVEXPCOFF
NEVEXPCLAY / NEVEXPCHAM
 2000 x 34 x 7 mm

To connect two floors of the same height.
 Available in silver, coffee, clay and champagne.

Vinyl adapter profile
NEVADPSILV / NEVADPCOFF
NEVADPCLAY / NEVADPCHAM
 2000 x 38 x 7 mm

To connect two floors of a different height. Available in silver, coffee, clay and champagne.

Vinyl end profile
NEVENPSILV / NEVENPCOFF
NEVENPCLAY / NEVENPCHAM
 2000 x 24 x 7 mm

To finish your floor along walls, windows or carpets. Available in silver, coffee, clay and champagne.

Multifunctional profile
QSPRSILV
 1860 x 47 x 16 mm

To connect two floors of the same height or with a height difference of up to 12.3 mm. Available in silver.

STAIR COVERS

Vinyl Stair Cover - Bullnose

QSVSTRBMP(-)

1474 x 136 x 54 mm

QSVSTRBSP(-)

1231 x 116 x 54 mm

Durable vinyl tread cover with a bullnose stair nosing to cleanly finish your stairs. Since Stair Covers are made out of your floor's material, the colour matches 100%. Easy glued-down installation. Vinyl Stair Covers are available only with our Bloom, Blos and Ciro collections.

FINISHING TOOLS

Colour-matched kit

QSKIT(-)

310 ml

This elastic, acrylic-based paste is the ideal solution to fill joints between skirtings and walls. Available in matching colours. Average usage: 1 tube for 15 m.

Pipe covers

QSRCINOX18 / QSRCINOX22

2 pcs/pack

Stainless steel covers to nicely finish pipes and heating elements. Available in inside diameter sizes 18 and 22 mm. Do not glue the covers to the floor, but install them floating.

TOOLS FOR A WATERTIGHT FINISH

Give your floor a watertight finish using our Foamstrip and Hydrokit to get your water-resistance warranty. Follow the installation instructions and consult the warranty conditions for more details.

Foamstrip
NEVRFOAMSTRIP15
15 m x 8 mm x 5 mm

Fill up expansion joints with the Foamstrip and combine with the Hydrokit for a watertight finish of your floor. Invisible installation under skirtings, profiles etc.

Hydrokit
QSKITTRANSP
310 ml

Transparent silicone to combine with the Foamstrip for a watertight finish of your floor. Invisible installation under skirtings, profiles, etc. Average use: 1 tube for 15 m.

STEP 1

Install your Alpha Vinyl floor

Provide an 8 mm expansion joint between walls and floor.

STEP 3

Add Hydrokit

Apply the Hydrokit on top of the Foamstrip.

STEP 2

Add Foamstrip

Install a Foamstrip between the wall and your floor.

STEP 4

Install your colour-matched skirting

What makes Vinyl Flex unique?

Waterproof and noise reducing, Vinyl Flex is ideal for busy households. In addition to these practical benefits, you don't have to compromise on beauty as our collection is designed to play with colours and patterns on the floor. This allows you to enjoy endless style combinations!

Discover three distinct features that'll make you fall in love with Vinyl Flex.

MOST BEAUTIFUL VINYL

Our in-house floor designers ensure every design is unique, with that natural feel you've been looking for, thanks to its distinctive surface structure. Create stunning spaces throughout the house combining traditional planks with our diverse range of tiles.

And don't worry about kids playing with their toys or pets running around, our extra-matt top layer keeps scratches and scuff marks at bay.

SOFT & SILENT

Vinyl Flex gives you the ultimate comfort. Feel the warmth under your feet from the moment you wake up until you take off your shoes at the end of the day. Whatever the hour, our floors are a pleasure to walk on.

In a busy household, there's usually a lot going on, but our silent floors will transform your home into a sanctuary of cosiness and calm.

SGMPC20321

SGMPC20321

WATERPROOF

From water fights in the bathroom to failed cooking experiments, Vinyl Flex is ready to take on any adventure that causes a splash.

There's no need to worry about cleaning up everyday mess. You can easily give our floors a quick wipe with a damp mop and use our cleaning products. This so your floor will look as good as new for years to come.

Step by step towards circularity

Being as sustainable as possible is important to us. We want to create a circular system where our floors can be recycled and re-used as raw materials at the end of their lives instead of being thrown away. How are we doing this? We have set ourselves clear and ambitious scientific based targets for 2030, and we're always innovating to ensure we meet them.

Step by step, here's how we're improving the sustainability of our vinyl floors.

WANT TO KNOW MORE?
SCAN THE QR CODE
OR VISIT [QUICKSTEP.COM](https://www.quickstep.com)

STEP 1

Made from consciously selected materials

A Quick-Step vinyl floor doesn't contain any harmful substances. The plasticisers we use to make your flooring flexible are the same as those used in children's toys and food packaging and are, therefore, 100% ortho-phthalate free and completely safe for you and your children.

STEP 2

Guaranteed for life

We guarantee floors for life. Because being sustainable means making products that will last as long as possible, making the most of natural resources. We ensure that our floors don't have to be thrown away after a few years: strong, waterproof and easy to maintain. A Quick-Step vinyl floor will look good and enhance your home for many years to come.

STEP 3

Recycling your vinyl floor

In 2023 we took the lead in recycling vinyl floors. We developed and set up Recover, an innovative take-back programme. Return your old vinyl floor to the retailer, and we will collect it, wash it, and grind it into small granules for re-use in new vinyl flooring. The project has already launched in The Netherlands and will get extended to other countries. We are also committed to find new homes for old vinyl floors, such as youth clubs and community centres.

By recycling and re-using our floors, we are taking an important step in closing the circle.

*Information sur le niveau d'émission de substances volatiles dans l'air intérieur, présentant un risque de toxicité par inhalation, sur une échelle de classe allant de A+ (très faible émission) à C (forte émission).

Beauty comes in many sizes

PLANKS		DIMENSIONS	BOX	BEVELS
	PRISTINE	740 x 129 x 2,5 mm	48 planks = 4,582 m ²	
	FUSE	1500 x 228,6 x 2,5 mm	12 planks = 4,115 m ²	
	LIV	1219,2 x 184,15 x 2,5 mm	20 planks = 4,490 m ²	

TILES		DIMENSIONS	BOX	
	BLUSH	609,6 x 609,6 x 2,5 mm	12 planks = 4,459 m ²	

 **PRESSED BEVEL** The bevel is perfectly adapted to the character of the floor. The colour, design and structure go through the bevel from plank to plank.

 **MODERN BEVEL** The bevel defines plank edges resulting in a clean modern or rustic look.

 **MIX & MATCH** The decors in Pristine, our herringbone collection, match exactly to the corresponding designs of our regular planks Fuse and Liv.

 **REFINED TEXTURE** Our refined textures accentuate the authentic design of our plank collections, for a floor that looks and feels beautifully natural.

Accessories for your floor

Your dream home isn't finished when you pick your floor. Creating your perfect interior starts with adding the right accessories to your chosen floor.

INSTALLATION

Choose either our glued-down option or FlexPro underlay as installation method.

FINISHING

Opt for skirtings that match the colour of your floor or go for any colour you like.

3

MAINTENANCE

With our cleaning products you'll get the best results, with respect for the planet.

ACCESSORIES FOR YOUR FLOOR

Step 1: installation

You'll want to walk on your beautiful new floor as soon as possible so installation is key. Choose either a glued-down option, or opt for Flex.Pro underlay.

ORDERING CODE	PIECE (PC)			PACK			PALLET	
	DIMENSIONS (mm)	WEIGHT (kg)	PIECES (#)	DIMENSIONS (mm)	WEIGHT (kg)	PIECES (#)	DIMENSIONS (mm)	WEIGHT (kg)

UNDERLAY

	QSVUDLFLEXPRO Flex Pro underlay 1,8 mm - 6,5m ²	6500x1000x60	16,900	1	190x190x1000	16,960	40	1200x800x1150	709
---	---	--------------	--------	---	--------------	--------	----	---------------	-----

Flex Pro has a self-adhesive side, so you don't have to fumble around with a tube of glue. Just peel off the strip and fix the plank or tile to the underlay. This ensures quick, clean installation with no mess on your subfloor. All with a little room for some final adjustments.

Looking for an installation option that's kind to the planet? Flex Pro is an underlay made from sustainable raw materials, including plant-based oils and mineral components such as chalk.

✓ quick and clean installation ✓ made from sustainable raw materials ✓ acoustic insulation & thermal resistance

ACCESSORIES FOR YOUR FLOOR

Step 2: finishing

Rest assured, all our skirtings:

- ✓ have a waterproof finish
- ✓ have a scratch-resistant top layer
- ✓ come with the same warranty as your floor

On the opposite page, find the corresponding number (1-13) of your preferred skirting, then turn to page 42 for the technical drawings and further information.
