

LIMES fencing system – Multiple assembly combinations

LIMES: The smooth fencing system - strength, protection and privacy all rolled into one.

Doors or Gates: Creates individual character and safe access to your property.

Wavy panels: Excellent stability with a special design.

Flexible angles: Free choice of angles depending on the post design.

Marbled surfaces: Natural appearance in your garden landscape.

Strong system elements: Can also be cemented directly into the ground separately, creating special garden design features.

Fence: The height and the number of bars can be chosen as desired.

Horizontal fence Ascania
Posts and bars, Lava brown

The different **post designs**, that can be cemented directly into the ground, offer excellent stability and durability. Available in system dimensions, the fence can also be individually tailored to your garden needs as is the case with all megawood® products. Create angles, recesses, waves or gates. Our **LIMES fencing system** effortlessly follows the terrain: Either elegantly parallel or simply stepped.

A system that adapts to the slope of your landscape:
The LIMES effortlessly follows the terrain.
